AI-AUGMENTED DATA ANALYST | BUSINESS INTELLIGENCE | WORKFLOW AUTOMATION

PORTFOLIO & LIVE DASHBOARDS: konarkparihar.vercel.app

PROFESSIONAL SUMMARY

AI-Augmented Data Analyst with corporate experience in multimodal AI model evaluation (Innodata) and operational data quality assurance (Xceedance). Completed a **16-month Certified Data Analyst program** (SQL, Python, Power BI) with interactive dashboards deployed live on Vercel. B.Com (Finance) graduate skilled in financial modeling, revenue analytics, and GenAI-assisted workflow automation with privacy-preserving data protocols.

TECHNICAL SKILLS

AI & Workflow Automation: Multimodal Prompting & Evaluation, AI Scripting (SQL, Python, VBA), Data Privacy Masking

Data Processing & Querying: SQL (Query Optimization, Joins, Aggregations), Python (Pandas, NumPy, Automation Scripts)

BI & Visualization: Power BI (DAX, Power Query, Star Schema), Advanced Excel (Formulas, Pivot Tables), KPI Dashboards

Business & Domain Analysis: Financial Modeling (B.Com Finance), Claims Data QA, Revenue Analytics, A/B Testing

CERTIFICATIONS & INTENSIVE TRAINING

Certified Data Analyst (Full-Time 16-Month Program) Jul 2024 - Nov 2025

Ducat, Noida | Advanced SQL, Python for Analytics, Power BI & DAX, Advanced Excel, ETL & Data Modeling

- Executed **50+ SQL queries, 20+ Python scripts, and multiple production Power BI dashboards** with AI-augmented protocols for rapid DAX formula creation and data masking.

KEY PROJECTS | LIVE INTERACTIVE DASHBOARDS AT KONARKPARIHAR.VERCEL.APP

Executive & Operational Intelligence Platform Power BI · DAX · SQL · Data Modeling

Dual-Layer Sales & Profit Health Monitoring (Live on Portfolio)

- Developed a 2-page executive sales dashboard tracking $2.3M in revenue across 4 geographic regions and 3 customer segments, giving leadership direct visibility into territory performance, order size trends, and high-growth markets.
- Built a scatter plot analysis (Profit vs Sales by Sub-Category), revealing category-level performance gaps where **Office Supplies held 47% of profit margin despite lower per-unit revenue**, enabling focused SKU-level P&L optimization.

Real-Time Environmental Intelligence System Power BI · DAX · REST API · Power Query

Live API Ingestion & Weather Severity Tracking (Live on Portfolio)

- Integrated a live **Weather REST API into Power Query** to track 15+ environmental metrics (temperature, humidity, wind, and air pollutants) across Indian cities with automated data refresh.
- Configured **conditional formatting with 3-tier color alerts** (green, orange, red) across AQI pollutants, paired with a DAX-driven dynamic text panel that provides real-time driving and safety advisories based on current visibility.

PROFESSIONAL EXPERIENCE

AI Analyst (Multimodal Evaluation & Prompt Engineering) Jan 2026 - Present

Innodata Inc., Noida (Remote)

- Engineered prompts and evaluated output accuracy, coherence, and safety across **4 AI modalities** (text, image, audio, video).
- Conducted comparative evaluations and **A/B testing** on generative model responses, resolving hallucinations and syntax errors.
- Maintained a verified **3.29/4.00 quality score** across daily evaluations, exceeding the target benchmark of 2.00 by **64%**.

Claims Analyst (Data Quality & Operations) Jul 2023 - Feb 2024

Xceedance Consulting India Pvt. Ltd., Noida

- Reconciled and updated database portals for **15,000+ insurance and healthcare records** from master Excel spreadsheets with zero compliance errors.
- Applied Excel formulas (**VLOOKUP, XLOOKUP, IF logic, data validation**) and sorting filters to clean records and eliminate discrepancies before system entry.
- Monitored daily production trackers, identifying processing bottlenecks that contributed to a **15% surplus** over daily targets.

EDUCATION

Bachelor of Commerce (Honours) in Accounting & Finance May 2019 - Nov 2022

Amity University, Noida | CGPA: 7.55/10.0

- Foundational coursework in financial modeling, corporate accounting, business process analysis & revenue analytics.
